Education

University of Houston — Houston, TX

Bachelor of Science in Computer Science, Minor in Mathematics | GPA: 4.00/4.00 — *Expected: May 2027*

Relevant Coursework: Data Structures & Algorithms, Databases, Software Engineering, Cloud Technologies, Discrete Mathematics, Computer Vision, Calculus I & II

Certifications: Microsoft Certified: Azure Data Fundamentals, AWS Certified Cloud Practitioner

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, C++, Swift, Objective-C, Kotlin, SQL, HTML/CSS
Frameworks/Libraries: React, Next.js, Node.js, FastAPI, SwiftUI, UIKit, Tailwind CSS, Zod, Jest/RTL
Tools/Platforms: Git, Xcode, AWS, Docker, Linux, PostgreSQL, SQLite, Firebase, Supabase, Vercel, OpenAI API, Notion API

Experience & Leadership

Snap Inc. (Snapchat) — Palo Alto, CA

Software Engineer Intern | Swift, SwiftUI, Objective-C, Kotlin, Valdi — *May 2026 – Aug. 2026*

- Shipped an iOS Live Activity for inbound friend requests in Snapchat's Friending surface, delivering real-time request state to a production client serving hundreds of millions of users.
- Built across Swift/SwiftUI and legacy Objective-C surfaces on Snap's cross-platform mobile stack, implementing serialization, caching, and error handling to keep Live Activity state consistent with the client.
- Defined edge cases and instrumented feature behavior with product, design, and backend engineers, preparing the release for A/B experimentation and staged rollout.

Grand Prairie ISD — Grand Prairie, TX

Software Engineering Intern | Python, PowerShell, SQL, REST APIs — *Aug. 2024 – May 2025*

- Automated device imaging and deployment for **500+** devices across **12** campuses using Python and PowerShell, cutting deployment time by **30%**.
- Built REST integrations and SQL reporting to track **800+** inventory assets district-wide.

National Society of Black Engineers (NSBE) — Houston, TX

Business Intelligence Chair | JavaScript, Google Apps Script, React, Vercel — *Aug. 2026 – Present*

- Own chapter technology systems spanning the website, membership database, and regional reporting; built a Google Apps Script service with time-based triggers that automated member point tracking for the officer board.
- Automated the chapter election cycle end to end with Google Forms and response-sheet processing; organized NSBE x Microsoft and NSBE x AWS technical events with **5+** industry speakers.

JPMorgan Chase — Plano, TX

Code for Good Hackathon | React, TypeScript, FastAPI, SQLite Cloud — *Oct. 2024*

- Led a **6**-person team to ship an alumni mentorship platform for a STEM nonprofit in **24 hours**, building profile-based mentor matching and dashboards for **100+** mentees with React, TypeScript, and FastAPI.

Projects

ATSify (atsify.io) | *React, TypeScript, Python, Deno, Stripe API* — Dec. 2025 – Present

- Built and launched a full-stack SaaS platform for AI-powered resume analysis and application automation, reaching **500+** active users and **$2,000+** net revenue within **2 weeks** of launch.
- Architected serverless REST services on Deno Deploy with Stripe subscriptions, webhook payment processing, and a Chrome extension with real-time sync.

Sanctify (Verse) | *React Native, TypeScript, Supabase, Firebase, OpenAI API* — Feb. 2025 – Present

- Led development and App Store launch of a cross-platform mobile app with prayer tracking, devotional content, and personalized engagement flows, integrating Firebase Authentication and Supabase for secure sign-in and real-time sync.
- Built an AI-powered contextual guidance experience with the OpenAI API, generating personalized responses grounded in user prompts and in-app context, contributing to **200+** downloads and a **4.8/5** App Store rating.
